To Whom It May Concern:

I writing to express my interest in applying for the Software Engineer position. I have a breadth of experience that I have gained while working in a variety of fields that would make me an asset to your company in this position.

My experience and qualifications are in line with the requirements you have listed for this position:

- I have experience with object oriented scripting languages such as C# and VB.Net and have built web-applications and web-forms using .NET Framework.
- I have developed websites and web apps using HTML, CSS, and JavaScript, JQuery, and AJAX focusing on simple, cohesive design and intuitive UX.
- I have experience building SQL databases with MSSQL.
- I have used Git for source control.

I find fulfillment in being challenged, in learning new ways to design user friendly applications, and in sharing my knowledge to others. I am eager to bring the same drive and propensity for learning that has allowed me to work successfully in a variety of fields to your company.

Thank you for your consideration. I look forward to hearing from you.

Sincerely,

Adriana Guerra
