To Whom It May Concern:

I writing to express my interest in applying for the Web Developer position. I believe the breadth of experience that I have gained while working in a variety of fields would make me an asset to your company in this position.

My experience and qualifications are in line with the requirements you have listed for this position:

- I have developed websites, web apps, and HTML email templates using HTML, CSS, and JavaScript.
- I have worked with MSSQL to develop databases and have experience integrating SQL databses with websites using LINQ and SQL queries.
- I have used image editors, such as GIMP, to modify images.
- I have used GIT for source control.

Beyond that, I have developed websites using .NET Framework, ASP.NET, C#, and VB.NET. I also have experience working directly with clients to build responsive and intuitive web forms and database tools.

I find fulfillment in being challenged, in learning new ways to design user friendly applications, and in sharing my knowledge to others. I am eager to bring the same drive and propensity for learning that has allowed me to work successfully in a variety of fields to your company.

Thank you for your consideration.I look forward to hearing from you.

Sincerely,
Adriana Guerra
