To Whom It May Concern:

I writing to express my interest in applying for the Product Developer position. The experience that I have gained implementing and expanding my programming and design skills while working in a variety of fields would make me an asset to your company.

My experience and qualifications are in line with the requirements you have listed for this position. I have experience using web technologies such as HTML, CSS, and Javascript, as well as .NET Framework with both C# and VB.NET. I also have experience with MSSQL and have exposure to Python from my work in research.

I find fulfillment in being challenged, in learning new ways to design intuitive, user friendly applications, and in sharing my knowledge to others. I am eager to bring the same drive and propensity for learning that has allowed me to work successfully in a variety of fields to your company.

Thank you for your consideration. I look forward to hearing from you.

Sincerely,
Adriana Guerra
